

JOIN FORCES TO MODERNISE HEALTHCARE

At **imageHOLDERS**, we partner with **Savience** to deliver integrated, smart self-service kiosks that transform the healthcare journey. Together, we combine Savience's patient-flow and check-in software with our modular kiosk hardware to improve efficiency and patient satisfaction.

The main areas of focus for this partnership are:

Partnership - imageHOLDERS and Savience combine smart kiosks with powerful patient-flow software.

Efficiency - Streamlined check-in, payments, and workflows reduce admin and improve patient experience.

Innovation - Delivering modern, scalable solutions for forward-thinking healthcare providers.

"Our partnership with **imageHOLDERS** is built on shared values of innovation, reliability, and patient-first thinking. By combining their modular kiosk hardware with Savience's advanced patient-flow solutions, we're able to deliver seamless, modern experiences that reduce bottlenecks, free up staff time, and make a real difference for patients and hospitals alike.

Together, we're not just improving efficiency—we're shaping the future of healthcare."

Roger Everitt
Managing Director, Savience

At **Savience**, we design and deploy kiosk-based self-service registration and patient flow systems, with a core focus on ambulatory care.

Our flagship product, Savience Clarity, streamlines busy, high-volume hospital environments by managing patient journeys from arrival to departure. Nimble, innovative, and highly skilled, our team delivers strategic solutions that reduce bottlenecks, ease staff pressures, and improve patient experiences.

With strong integration capabilities and a can-do mindset, we are more than a system provider – we're a trusted partner to hospitals, staff, and patients alike.

READY TO MODERNISE HEALTHCARE?

"Our partnership with **Savience** combines hardware and software to meet the evolving needs of modern healthcare providers. With years of experience delivering self-service kiosks to hospitals and clinics, we understand the importance of tailored integration and seamless workflows.

Our modular healthcare kiosks, paired with Savience's configurable software, create optimised systems that enhance efficiency and deliver exceptional user and patient experiences.

Together, we're helping healthcare providers improve operations and provide outstanding service, and we're proud to continue bringing these benefits to the sector."

Pete Thompson
Vice President of Sales - imageHOLDERS

At **imageHOLDERS**, we design and deliver smart self-service kiosk solutions that help healthcare providers improve efficiency, accuracy, and patient satisfaction.

Our modular kiosks support everything from patient check-in and appointment management to payment processing and wayfinding, streamlining workflows while enhancing the overall care experience.

We're proud to partner with forward-thinking healthcare organisations ready to boost efficiency, reduce administrative burden, and meet the evolving needs of patients.

Discover how our seamless hardware and software integration reduces wait times, boosts efficiency, and enhances patient satisfaction.
